Future clusters in innovation ecosystems - Virtual session

4
Likes Thu 15, October 2020
11:30 - 13:00

Please [sign in with EU Login](#) to vote.

Innovation ecosystems help to address complex challenges at regional, national and EU level, but their role is changing. Clusters are a key part of this ecosystem, but they have a shared responsibility both to foster competitiveness, technology and knowledge transfer, and increasingly to act as innovation intermediaries to reach and engage quadruple helix actors. An innovation ecosystem may have different roles, based on different regional S3 priorities. Regional development requires coherence between the S3 and its clusters to pursue smart development that connects sectors, technologies and geographies.

Lessons learned from the three Interreg projects ClusteriX 2.0, ClusterFY and NMP-REG, involving more than 20 European regions, will be shared. Four policy representatives will present future policy developments, followed by an interactive debate with the audience.

Next step is to choose the session you want to subscribe.

Please go to the link of the website to subscribe. Give in your password. As verification method you choose one of the two following options (depends upon what you find the easiest): EU Login Mobile App PIN Code / EU Login Mobile App QR Code.

In this example we use the QR code:

Next Europa CMS requires you to authenticate

QR code authentication

Please scan the QR code with your EU Login mobile app and type in the generated code below.

Code generated by your app

Sign in

You can now scan the QR code with your mobile and you fill in the code you will receive on your mobile or laptop.
